COVID-19 RAPID CAPABILITIES

MANUFACTURING BUSINESS

Home Industries Services Capabilities Company Contact

Rapid Manufacturing Capabilities

Our state-of-the-art manufacturing facility is prepared to assist with COVID-19 rapid manufacturing capabilities.

COVID-19 Rapid Manufacturing Capabilities

Precision CNC Machining Services Through All Stages of Manufacturing.

ENGINEERING SUPPORT

PROTOTYPE

MANUFACTURING

INVENTORY MANAGEMENT

ISO 9001:2015 CERTIFIED

ISO 9001  
(International Organization for Standardization)

Manufacturing Capabilities

Equipment

CNC Multi-Axis Swiss Style Machining  
Live Tooling  
Y-Axis Machining Capability  
High Pressure Coolant  
Automated Loading

Additional Capabilities

CNC Control Capabilities  
Large Swing Lathe  
Bar Feed  
Milling  
CAD Software  
High Volume Machining

Production Capabilities

Project Volumes

Prototype  
Low Volume  
Small Run

High Volume  
Large Run  
Long Run

Min Volume  
1

Max Volume  
250,000

Tolerance  
±0.0001 in

# Axis  
Up to 9

Max Diameter  
1.50 inch

Max Length  
12 Ft

Lead Times  
2-8 Weeks or as needed

PROCESSES

• Milling  
• Drilling  
• Boring  
• Thread Milling  
• Internal Forming  
• Knurling  
• Gear Hobbing

• Broaching  
• Turning  
• Contour Turning  
• Form Turning  
• Taper Turning  
• Straight Turning

• Threading  
• External  
• Internal  
• Tapping  
• Counter-boring  
• Countersinking

• Pocketing  
• Profiling  
• Reaming  
• Splines  
• Parting/Cutting  
• Facing

MATERIALS

• Alloy Steel  
• Aluminum  
• Beryllium  
• Brass  
• Bronze Alloys  
• Carbide

• Carbon Steel  
• Cobalt  
• Copper  
• Iron  
• Lead  
• Stainless Steel

• Titanium  
• ABS (Acrylonitrile  
• Butadiene Styrene)  
• Acetal  
• Acrylic  
• Fiberglass  
• Reinforced Plastics

• Nylon  
• Phenolic  
• Polyamide-Imide  
• Polycarbonate  
• Polyetheretherketone (PEEK)

Business Capabilities

Supported Industries

Agricultural  
Aerospace/CNC Machining  
Architectural  
Commercial  
Dental  
Electronics  
Exhausts  
Food  
Law Enforcement  
Machine Tool  
Marine

Precision Medical Machining  
Military Machining  
Oil Field  
Customized CNC Machining  
Optical Components Manufacturing  
Packaging/Converting  
Pharmaceutical

CNC Machining Tolerances

Contact us for specifications on custom CNC machining tolerances for all your parts and components as well as any additional information on our precision Swiss manufacturing capabilities available at our precision machine shop.

Additional Capabilities  
Available for Rapid Response

Turn your standard  
capabilities list into a  
“COVID-19 Rapid  
Capabilities” page to  
promote a quick list for  
buyers in desperate need  
of high demand products  
and services so they can  
see how you can work  
together during this time.
